Hallo

Yes, I was able to access and read the attachments. I was not able to open the four attachments embedded within file 1 of Attachment W. File 1 is a PDF of an e-mail dated 18 June 2012. That e-mail came with the four attachments in question. If you consider it important to your case to have these attachments readable by the members of the Executive Committee of the FGPS, I suggest that you send them to me separately, referencing them as “attachments to e-mail dated 18 June 2012.

Dear Dr. Moriarty:

Thank you for your prompt attention to this matter. Your email is most distressing and causes me to worry. For better clarity, the “First version of comments from student in response to examiners’ report” was sent to the examiners by Dr. Robertson and not by me. Dr. Robertson can confirm this and I would suggest that he be queried about his reasoning for doing so.

Can you please confirm you are able to access and print the attachments forwarded by Mireille?

Sincerely,

Nicholas

Dear Mr. Ali,

I note your point regarding the first version of the comments on the revised thesis. As I now understand it, you sent this document to all four examiners and just one of the four, Daniel B  no  t, objected to its tone. I will make sure the correct information is provided to the Executive Committee.

The omission of the “Thesis evaluation forms” for the second evaluation of the thesis was an oversight.

Regarding e-mail exchanges between you and the dean and staff members at the FGPS and at the School of Human Kinetics, I will include them.

With regard to the email you sent at 11:14 am on 25 March 2013 with “Letter of Appeal” as subject, I was unable to print the attachments that are referred to in your letter of appeal. Could you kindly resend that email?

I will send you a revised package for the Executive Committee as soon as possible.

Dear Dr. Moriarty:

Thank you for the documentation. I had the opportunity to review this information. For perfect clarity the “First version of comments from student in response to examiners’ report” (pages 99 – 215 in the documentation you provided) was sent to ALL examiners. Stemming from your email dated February 11th 2013 (see attached) can you please advise why the examiners report for the revised thesis was not provided? More importantly, can you please advise why most of the communications between the Dean and myself, Dean and staff of SHK, as well as staff of FGPS and staff at SHK, specific and critical to my case, are absent from the documentation you provided? Some of the latter information was referenced in my letter of appeal, though not provided, given I expected that this would be provided by FGPS as a result of your email dated February 11th 2013 attached. Finally, by my estimate, 90% of the documentation content you provided is technical.

I look forward to hearing from you.

Sincerely,

Nicholas
